Stop the Germans! Don't let corrupt Germans kill innocent, honest people.

Dear President of the United States of America Mr. Donald Trump,

Dear Congressmen of the U.S. Congress,

Dear Deputies of the Democratic and Republican Parties of the USA,

Dear Senators of the U.S. Senate,

An Open Letter of Appeal to the NATO officers,

An Open Letter of Appeal to the World Community.

Good evening.

This is Nikolaus Erney from Cologne, Germany.

About 7000 of my relatives live in America after they moved to America in the 1700s. There are relatives of mine in all large and medium-sized cities in America. We are all connected and communicate with each other. When I made the decision to immigrate to Germany in 2016, I did not assume that Germany was captured by corrupt criminals, that Germany is a country in which engineers and programmers are strictly forbidden to live, which is why the most successful Internet corporations are located in America.

To fight against the corrupt criminals, officials, judges, prosecutors who seized Germany, I ask to adopt the Law named after "Sophia and Maxim Erney", who suffered from the criminal actions of corrupt German officials, prosecutors and judges, by analogy with the Law named after "Magnitsky".

Make a list of corrupt officials, judges, prosecutors, police officers from Germany, ban them from entering the United States of America, arrest all their assets in accounts in Switzerland, and in European and American banks, fine all banks that have assets of these criminals, make criminals respect rights human.

Only the loss of the proceeds of crime will force the criminals in power to stop or significantly limit their crimes against ordinary citizens of Germany.

For example, documents for 20 years of work of the Harry Murey Center for the Protection of Human Rights from Austria have been prepared, these are 14 PDF files, for each of which you can adopt your own law on punishing criminal officials, judges, and prosecutors.

The Germans, after a year of weak bites, dealt a serious blow to me

A decision was made in absentia about 3 months in prison, for the fact that I, because of many years of beating of children in schools, called German courts Nazi courts.

When my lawyer filed a complaint against this verdict in absentia demanding an open trial.

And Claus Plantiko, Lieutenant Colonel of the German General Staff, NATO officer, former military attache of Germany, submitted a power of attorney to the process.

He was preparing part of the documents for me in court regarding the right to go to a Russian school under the Ministry of Foreign Affairs of the Russian Federation, the Germans forbade, under threat, to remove Maxim from the family.

Plus, an article was published in MK about 200,000 stolen children - unknown victims of the Great Patriotic War.

Violently marked, humiliated and insulted -

The tragedy of children taken to Germany during World War II.

Out of 200,000 of them, less than 200 remained. Old people who did not remember their names. Ivanov, Zbyshekov, Karelov, Mykol, who became Hans, Fritz, Ludwig ... Russians, Belarusians, Ukrainians, Poles, ...

Plus a video on the Stalingrad channel about these 200,000 children of unknown victims of the Second World War

As soon as the Germans translated the texts of the MK and the video Stalingrad and Ivan Chay, and the court received my demand to cancel the sentence in absentia and appoint an open trial, the court immediately ordered me a psychiatric examination with the justification that I was dangerous for my children

Now if my wife with Maxim and Sofia go to any country in the world, Turkey, Egypt, Cyprus on vacation, then the children will be taken away by the local police and transferred to Germany, taken away from me, since in the opinion of the court and psychiatrists I am dangerous for children, and taken from my wife, since she did not prevent this danger from me.

I think the Germans will kill me in the end, I have revealed a lot of judicial corruption and abuse of children and said this openly on the Internet, and it is forbidden to speak even on the Internet in Germany.

I cannot leave Germany.

And lawyers in Germany are linked by status by the boundaries of what is permitted by the court, lawyers in Germany are part of the court, when trying to go beyond what is permitted by the court, a lawyer loses his admission to the right to work as a lawyer and goes to clean the street.

Can you make a power gegen Germany to hold an open hearing on the conviction of Nikolay Erney for criticizing Germany?

When the court passed a verdict in absentia for 3 months in prison, the court had no doubts that I was healthy and could and must bear responsibility for my words, publications, speeches and documents.

When I said that I was ready to serve both 3 and 10 years, but I was demanding a trial, and not a decision in absentia, the court immediately ruled that I was sick in the past, and therefore there would be no open trial.

How can a fascist judge judge me? The criminal judge in my case 10 years ago sold gramophone records with fascist symbols himself, I found documents from another court.

in general, I look forward to hearing from you.

I am simply afraid that the Germans will kill me, after all the documents and court decisions made public with evidence of corruption in the courts, officials and the prosecutor's office, I am not a tenant.
